

Stakeholders Survey Part 1

Fundamental Assumptions for Added Discussion

For each statement place a checkmark in the box that best reflects your agreement or lack of agreement.

1. Immediate and long term risks to human health and safety should be considered in locating new landfills.

Strongly Agree ☐ Agree ☐ Neutral ☐ Disagree ☐ Strongly Disagree ☐

2. Immediate and long term risks to the environment should be considered in locating new landfills.

Strongly Agree ☐ Agree ☐ Neutral ☐ Disagree ☐ Strongly Disagree ☐

3. Missourians expect landfills to be sited safely and economically.

Strongly Agree ☐ Agree ☐ Neutral ☐ Disagree ☐ Strongly Disagree ☐

4. The geologic and hydrologic conditions in Missouri vary widely in different regions of the state.

Strongly Agree ☐ Agree ☐ Neutral ☐ Disagree ☐ Strongly Disagree ☐

5. Siting criteria must be flexible enough to apply to all conditions in the state.

Strongly Agree ☐ Agree ☐ Neutral ☐ Disagree ☐ Strongly Disagree ☐

6. All parties involved with locating landfills want to clarify which geologic and hydrologic conditions are suitable for siting landfills, and which are not.

Strongly Agree ☐ Agree ☐ Neutral ☐ Disagree ☐ Strongly Disagree ☐

7. Siting criteria for new landfills should be flexible enough to consider new approved technologies as they become available.

Strongly Agree ☐ Agree ☐ Neutral ☐ Disagree ☐ Strongly Disagree ☐

8. The life of a landfill extends beyond regulatory timeframes.

Strongly Agree ☐ Agree ☐ Neutral ☐ Disagree ☐ Strongly Disagree ☐

9. Long-term maintenance and active remediation of landfills should be minimized.

Strongly Agree ☐ Agree ☐ Neutral ☐ Disagree ☐ Strongly Disagree ☐

10. Drinking water supplies should be protected from impacts associated with solid waste disposal facilities.

Strongly Agree ☐ Agree ☐ Neutral ☐ Disagree ☐ Strongly Disagree ☐

11. Landfills should be located where a contaminant release can be detected before it moves "off site" or enters a regional aquifer.

Strongly Agree ☐ Agree ☐ Neutral ☐ Disagree ☐ Strongly Disagree ☐

12. Migration of landfill gas should not put public health or safety at risk.

Strongly Agree ☐ Agree ☐ Neutral ☐ Disagree ☐ Strongly Disagree ☐

13. Areas of intense karst development are not appropriate for landfill development.

Strongly Agree ☐ Agree ☐ Neutral ☐ Disagree ☐ Strongly Disagree ☐

14. Areas immediately over active faults are not appropriate for landfill development.

Strongly Agree ☐ Agree ☐ Neutral ☐ Disagree ☐ Strongly Disagree ☐

15. Site-specific data should always be considered in evaluating proposed landfill sites.

Strongly Agree ☐ Agree ☐ Neutral ☐ Disagree ☐ Strongly Disagree ☐
